There's much more to travel than just the destination.

This is not just our motto. We actually put that in action. We are a family-run company. And we have a combined experience of more than forty five years. This means that we know Mozambique. Three IATA travel agencies, a dedicated Mauritian management team, a leading position on the local market allow us to manage any range of travel needs from the simplest to the most complex. It's not just flying travelers to destinations all over the world. We pride ourselves of our 24/7/365 accessibility along with true personal service. We guide you throughout the whole travel planning process from visa requirements to minimal transit time so that you enjoy an exceptional travel experience.
